Significant Activities 1-25-2021 to 2-08-2021

Assessor

Part Time Assessor has worked on following issues:
reviewed TIF reports for Grand List 2019 and reviewed with Planning and Zoning
Revid the Equalization Study, Appealed the Equalization Study
Participated in the Select Board meeting for a discussion of the Equalization Study
Prepared for the Terrace Hearing Feb 17th. Reviewed financial documents for the Terraces
Prepared for Select board Meeting possible settlement offer for the Terraces
Notified Finance of changes to the 2019 and 2020 grand list based on Hearing Offices decision

Assistant Assessor has worked on following issues:
Received Current Use correction from State. Reviewed state statue regarding changes to GL after Dec 31st 2020.
Reviewed changes to 2019,2020,2021 Grand Lists on both CAMA and NEMRC for Appeals (Bridge&Main and Overlook). Sent changes to Finance.
Reviewed PVR Decision letter for Bridge&Main and Overlook. Addressed both LOA and CLA got applied. Assessor reached out to PVR Director on this matter.
Reviewed CLA’s from Equalization Study 2018, 2019,2020. PVR website might not be up to date. Assessor reached out to PVR on this matter.
Reviewed 1st List of eligible veterans for tax exemption.
Due to in person tax collection week, the office received over average phone calls.
Public outreach on voicemails (veteran, assessment, map issue, commercial condo sales)

Department of Public Works

Highway
1. The Highway Crew continues to work on equipment to ensure everything is well maintained and employees are safe.
2. Hauled 121 tons of sand to the White River Junction shed.
3. The Highway Crew was called in for road maintenance on January 23rd. We received up to 2” of snow in some areas. The Highway Crew worked 4 hours.
4. The Highway Crew started filling in potholes around town.
5. January 29th, we plowed a parking area for the fishing derby put on by Parks and Rec.
6. The Highway Crew worked with the Water Department to fix a water main break on Campbell Street.
7. The Highway Crew came in at 6pm on February 1st to start pre-treating the roads prior to the snow.
8. On February 2\textsuperscript{nd}, we reported to work at 4:00am to continue clearing the roads after the snowstorm. We also reported to work at 4:00 am on the 3\textsuperscript{rd} to continue snow removal.
9. On February 4\textsuperscript{th}, the Highway Crew reported to work at midnight to perform snow removal in the Downtown White River Junction area.
10. The Water Department continues to assist the Highway Crew with plowing and sidewalk care while we are still short 2 staff members and have one member out with an injury. Thank you to the Water Department for all your help!

\textbf{Water}

11. \textit{It is our goal to take all necessary steps to maintain the health and safety of our employees and community. Until further notice, we will not be entering any homes unless we are notified of a water leak causing home damage.}

12. The Water Department continues to work with a smaller crew due to Covid quarantine requirements and vacations.
13. Repaired a leak on Pleasant View Terrace.
15. Completed the first round of monthly water samples.
16. Completed our quarterly samples for VOC, nitrate, iron, manganese, and arsenic.
17. Started work to replace the pumps at our Kingswood Station.
18. Assisted the Highway Department with plowing and sanding during the recent snow event.
19. Joe has started taking his Water Operator classes.
20. Repaired a leak on Campbell Street.

\textbf{Wastewater}

22. \textit{It is our goal to take all necessary steps to maintain the health and safety of our employees and community. Until further notice, we will not be entering any homes unless we are notified of a wastewater leak causing home damage.}

23. The White River Wastewater Crew has been actively working on the following:
   a. Received 3 positive and 3 negative Covid tests for the month of January.
   b. Assisted the water department with repairing a leak on Campbell Street.
   c. Glenn continues his wastewater plant operator classes two days a week.
   d. Performed snow removal.
   e. Submitted State Reports.
   f. Pulled the starter on case tractor. It has been repaired, reinstalled, and all is now working.
24. The Quechee Wastewater Crew has been actively working on the following:
   a. The new chemical pump for phosphorous removal is now up and running. Initial tests show a reduction in phosphorous.
   b. The Quechee Wastewater Crew has been running extra tests on phosphorous at different locations in the process.
   c. Performed snow removal on sidewalks, the pump station, and at the plant.
   d. Was called out to Hiram Atkins Byway. Upon inspection, it was found to be an issue with the homeowner’s pump station.
   e. Submitted State reports.
   f. Assisted White River with getting a tablet and drop box set up for the 2021 year.

Fleet Management
25. Fleet Management performed the following:
26. PD-1: repaired an engine oil leak, installed new battery and belt tensioner. Mount bolts were drilled out and replaced.
27. PD-3 serviced and charging system checked. Repaired the high beam circuit as well.
28. PD-4 Serviced and tires rotated. Flashlight charger and weapon lock were repaired.
29. PD-6 Serviced and state inspection completed.
30. PD-5 Serviced and tires rotated. Installed a new battery that was replaced under warranty.
31. AMB-3 serviced and performed both the quarterly and State inspections. Pete’s Tire Barn rotated and balanced the tires as well.
32. AMB-1 Installed NOX modules and sensors.
33. H-2 serviced and performed repair on the rear wing hydraulic system. Repaired sander spinner shaft and shaft bearing replaced. Performed repairs to the sander spinner mount. A New front wing slide was built and installed as well.
34. H-10 Installed a new engine oil pan that was under warranty at Key Chevy. Wired and installed a new plow and strobes were installed on the rear of the truck.
35. H-8 Replaced wing arm, plow edges, and new strobe lights were installed. The wiring on the lower chassis light was repaired and new light assemblies and a new plate light were installed as well.
36. H-4 Replaced shoes and the plow and wing were edged. Repaired the sander chute.
37. H-3 Installed new strobe lights and made repairs to the spinner.
38. Holder C-270 Repaired box drive, front lower headlights were re-wired and repaired. The fuel tank sending unit has failed and we are currently waiting on a quote from the dealer.
40. H-6-2020 Installed new wiper blades. New mud flap support mounts were made and installed as well.
41. The heating fuel tank large access cover and ring were replaced by D&M Petroleum.

**Solid Waste**
42. **At this time, the Solid Waste facility is open Tuesday through Saturday from 8:00 am to 4:00 pm. Our buildings are still closed to the public.**

**Administrative Active**

*These are projects or tasks which have a notable update or that members of the Public Works team are actively engaged in.*
43. The DPW team continues remain responsive to changes related to Covid-19.
44. Brittney continues to utilize our Facebook page! We are excited to be able to share information to our community. Please continue to check there for good news and DPW updates.
45. The DPW team continues to work with VTrans as the VA Cutoff Bridge Replacement design phase moves forward. Hannah met remotely with that team to discuss project updates.
46. The DPW team continues to work with VTrans as the Route 14 Paving Project moves forward. That project is anticipated to kick off in Spring 2021.
47. The DPW team along with other members of Town Staff will be meeting with VTrans to discuss updates on the Route 4/5 Intersection Scoping Study. A remote meeting for that project was held on January 26th. Hannah is working with the Town Manager’s office to schedule time at a board meeting to discuss project alternatives.
48. We continue to work together to fill vacancies in the department.
49. Chris continues to work closely with our consultant to address the failing 5E leach field in Quechee. It is likely that they will require us to address infiltration issues within that portion of the system as part of the new permit.
50. Chris has been working extensively with the State of Vermont to address stormwater permitting requirements for the development associated with Billings Farm Road.
51. Chris has been working with a consultant to work through the certification process (Flood Plain Regulations) to install safety lighting in the Town Hall parking lot.
52. It seems like a very busy time of year for private construction and real estate changes! Chris has been working closely with developers and individuals on a variety of projects to ensure compliance with standards and assist them in navigating permitting processes.
53. Chris and the Wastewater Team are working with Aldrich and Elliot to do smoke testing of portions of the sewer system as part of our LTCP/CSO study continues.
DPW staff has been working with the VLCT on a variety of claims.

DPW staff continues to support the team at the Colodny Building project.

Chris is working closely with Aldrich and Elliot and Lori as we move forward with the second phase of the South Main Street project. A meeting for that project is scheduled for February 11.

Chris has been securing/finalizing the last easement for the Quechee Main Box project.

It appears that the work around the Union negotiations is moving forward.

Hannah has spent a significant amount of time working with attorneys on an active/on-going lawsuit.

Hannah has spent a significant amount of time on the Norwich/Marion Cross Sewer issue.

**Administrative Ongoing**

*These are projects or tasks that may not have substantial current updates, but worth noting that they exist in the background of our daily operations.*

- The Sykes Mountain Project is currently ‘shut down’ for the winter. We anticipate re-starting up in April.
- The contractor on South Main Street project has demobilized for the winter. They will likely be back in April.
- We are working with Dillon Walsh to repair issues with our phone system. We are experiencing ‘dropped calls’ on a regular basis and that our voicemail boxes are full, when they aren’t. Please be patient while we work to correct this.
- The April 15th, 2019 rain event has been federally declared as a disaster. Jeremy has been working with FEMA on this project. Although FEMA notified us recently that due to the classification of this road as a Federal Aid Route (thus not qualified for FEMA funding), there are State of Vermont funds allocated for repairs to these streets.
- Jeremy Delisle continues to work with FEMA and Vermont Emergency Management to close out the July 1st (2017) storm. It looks like we are getting closer!
- DPW staff continues to work closely with several private contractors around town to ensure that their projects are in permit compliance (Wilder School, Twin Pines, the Simpson Development, and 132 South Main). Chris Holzwarth has been working very closely with the Planning and Zoning Department.
- Paula Nulty continues to provide us with support on a variety of human resources items. We appreciate all of her assistance.
- DPW staff is working to ensure that our permitting process (various items) are issued and reviewed consistently.
- Hannah is closing out the West Hartford Library Project (leftover from TS Irene). She continues to field Requests for Information from FEMA and Vermont Emergency Management.
- A consultant has been hired to complete the Spill Prevention, Control, and Countermeasure Plan required by the EPA for the Solid Waste facility.
71. Unfortunately, we are struggling with disposal of our solid sludge that is accumulated from both the Quechee and White River facilities. Historically we have been able to dispose of that waste at the Lebanon Solid Waste facility, however, they aren’t able to accept our sludge at the rate we accumulate it due to the restrictions on their composition. We are very actively investigating other options and seeking quotes from our water resources engineers so that we can develop a menu of options for disposal or better processing.

72. DPW staff is working closely with the State and our consultant to complete the required PFAS testing on the fields which we have formerly land applied. This is an unanticipated, costly expense to our budget.

73. The engineering plans for the proposed 12” ductile iron water main in Quechee Main Street are currently at 50%. We are currently evaluating hydrant placements which could be used for tanker filling and as temporary water connections during scheduled shut downs for culvert replacements or disasters. These placements are complicated by topography and other restrictions making a careful evaluation that weighs their value critical. With Covid-19 restrictions and potential financial complications the project schedule has been extended with engineering/permitting to be completed by December 2021 and potential construction moved to summer/fall 2021.

74. The engineering plans for the proposed utility improvements in Abbey Road are complete and no State permits are required. We are currently waiting on the Town attorney to complete easements for the work which has been delayed due to Covid-19 restrictions. The engineer’s projected cost is currently $225,000, which is far greater than originally anticipated. With financial complications the project schedule has been extended with easement work to be completed by December 2020 potential construction moved to summer/fall 2021. We will be working with the State to determine financing options in the coming months. Town crews will continue to monitor and clean the sewer on a regular basis to prevent back-ups.

75. The engineering plans for the proposed water main improvements in South and James Streets were completed with revisions under way to address State review comments. We expect to receive an engineer’s estimate of cost once the revisions are complete. We anticipate construction in the summer/fall 2021. We will be working to determine the funding source once we have an estimate of cost.

Note: The operations and project updates outlined in this memorandum are an overview of our operations and not exclusive to any individual projects.
Fire-Significant Activity Report

The department began staffing study Feb 1. The department will begin by staffing the Quechee Station when shift levels are at five personnel on duty. 3 will be staffed at the headquarters station on VA Cutoff and two will be stationed in Quechee for their 24-hour shift cycle.

Members of the department are beginning training with the Dept of Health to administer COVID-19 vaccine when readily available. Radio System contract is in development with the Town attorney and the radio system contractor.

The department will be advertising for an upcoming opening for a Firefighter/Paramedic/EMT position.

The Fire Marshal's office has been completing fire investigations, purchase and sales inspections and liquor license inspections.

The department responded to 92 calls for service during this period.

**Information Technology**

- network switch rfp meetings
- tunnel design for station 2
- cradlepoint router setup in station 2
- voip phones, laptops
- meeting to see about running data cable from trailer to bay

**Parks & Recreation Department**

**Program Highlights**

- The Department held our annual Let’s Go Ice Fishing at Dewey’s Pond on January 30th. The program was a modified COVID-19 activity in lieu of the traditional derby. The activity was for youth 14 and under and we had over 45 pre-registered and 36 attended. It was a very frigid and cold day which impacted attendance. This was a free program for those registered and started at 7:00am through noon. Parks & Recreation Staff was on site to check registered participants in and assist with drilling holes. Participants receive a welcome bag and free bait. A goody bag provided snacks and a variety of fishing items along with stickers. Mascoma Bank provided the goody bags. Other
sponsors included Steve’s Bait Shop, Walmart, Members Advantage, BJ’s and Hannafords.

- The Department hired seasonal staff for February Vacation Camp. The program will be held February 15th through the 19th from 8:00am to 4:30pm. The program will be held at the Hartford Middle School.
- We continue to work with the School Districts COVID Committee on our collaboration to provide a winter basketball program for Kindergarten through High School. We are still awaiting a decision from the school on usage.
- The After-School Lego Club continues at the Hartford Town Hall. COVID restrictions are in place with many of the activities held outside in Lyman Park. We have twelve participants which is the max we can take for the class.
- Crafternoon Afterschool Program continues as well. The sessions are on Thursday’s and held at Hartford Town Hall and Lyman Point Park. The program offers a wide variety of arts and craft projects for grades K-5 to stimulate creativity, social interaction, and skill development. COVID guidelines are in place for this program.
- Youth Karate continues. The program is instructed by Brett Mayfield. COVID restriction are also in place for this program.
- The Kids Comics Class has 13 enrolled. This virtual program uses the Zoom Platform. The class teaches the basics of cartooning to children ages 9-13.
- The Golden Ticket program continues in the parks. The successful activity hides a ticket in a discreet area of one of our public parks and clues are sent virtually using Facebook and other social media outlets. A close-up picture of the ticket will be posted on our Facebook page as a clue. Families who find the ticket must take a picture of the ticket at the park and upload it to the Facebook post or email the photo to the department.
- The Department is finalizing plans for Hearts in the Parks that will be held Friday, February 12th through Tuesday, February 16th. This program provides an adventure as you explore our Parks to find Hearts in a community scavenger hunt. Each heart you locate will have a question you will need to solve. Participants can complete the scavenger hunt in a few hours or take their time and find a couple hearts a day. Once complete, participants send us their completed worksheet to be entered into a prize drawing. Winners will be announced Feb. 18th. This idea of the program provides individuals or the entire family the opportunity to solve questions and exploring parks as they take part in Hearts in the Parks.
- In addition to the Hearts in the Parks, the Department has schedule two Sweetheart Skate’s at the WABA Arena. This is a pre-registered activity and each session has a max of 20 couples. COVID restrictions are in place and social distancing on the ice will be required.
- In the House Skates continue as well. We marketed this opportunity for the upcoming Valentine’s weekend. All slots are filled for this family activity.

**Parks/Facilities**

- The Department has finalized the pool contract with Bread Loaf Contractors. The contract will require the Town Manager’s signature and then will be sent off to Bread Loaf.
• Geotechnical borings will be conducted the week of February 8th. 5 borings will be drilled, and the soils tested by M&W Soils Engineering. The borings are to confirm the soil conditions. Reports were also used from the construction of the field house and the parking lot to help identify current conditions.
• The Outdoor Rink at Frost Park remains open. Thanks to Ben Danaher who volunteers to flood the rink in the later and early hours when temperatures are the best for making ice. The department will plow the rink after snow events.
• New guidance was announced on February 5th for indoor sports. This new guidance impacts the WABA operation and will allow games to happen starting February 12th. We are waiting for the published guidance to be available on the Department of Commerce web page. We expect that games will be allowed but without spectators. This will also impact the Upper Valley Hockey Association so they can begin playing competitive games with other Vermont skating groups. The COVID-19 Operating Guidelines for WABA Arena have been updated to reflect game operations.
• A loose connection of the positive side of the Zamboni battery arched and caused the machine to shut down. This occurred on February 5th and impacted the last sheet of ice that evening. The old Zamboni was put into service through the weekend until the cable could be replaced.
• Requests for Proposals were distributed for the Parks Turf Treatment, Field Maintenance and Spring/Fall Cleanup. We have a bid opening schedule for February 10th.
• The Bond Bank Application for the Municipal Pool Project goes before the Selectboard for signature approvals for the formal application.
• One of our Park Laborers resigned from his position to take a position with a local company. We will be posting the open position soon.
• The RFP for the infield groomer was advertised in the paper and we are soliciting proposals for the unit along with a five-year municipal leasing program.
• The Department will be purchasing infield mix material for Maxfield. The DuraEdge product will be used on the baseball and softball fields this spring. We hope to have the product on site before road weight limits are posted.

Department of Planning and Development
• Vermont COVID Economic Recovery Plan - Continued to circulate information on additional federal, state regional and local relief programs, resources, and safety.
• “Hartford Dollars” COVID Buy Local Program – Working with the Chamber to develop a sustainable program that will be ongoing now and post COVID Pandemic.
• TIF Annual Report- Vermont Economic Progress Council concluded draft report was complete and ready for certification. Prepared report to Selectboard for presentation at February 9th meeting, and then certification by the Assessor’s Office, and a designate Town Official for final submittal to the state by February 15th.
• Zoning Districts Review – Held second and third community meetings on January 25th and February 1st to discuss the possibility of creating another new zoning district that adds residential and mixed-use to the Highway Commercial District in Quechee along RT 4. At the February 1st meeting, the Planning Commission voted
to proceed with the formal public hearing process for the two proposed new zoning districts on RT 4 and RT 5. The tentative date is March 1st. More information is be posted on the Town Website.

- Hartford Business Revolving Loan Fund (HBRLF) & Vermont Community Development Program Revolving Loan Fund (VCDP-RLF) – Prepared two separate reports for the February 9th Selectboard meeting for approval of loan interest rate change for each fund, and for a contract with Green Mountain Economic Development Corporation for administration of both RLFs.
- Vermont Community Development Program Revolving Loan Fund (VCDP-RLF) Application – Prepared report for Selectboard review at its February 9th meeting.
- Wentworth Housing 2 Grant – Continued working with Twin Pines Housing Trust, the State and Evernorth to finalize the grant and subgrant agreement documents.
- Town Forest Recreation Plan – The Conservation Commission and staff have reviewed the public comments received last month and are completing the final draft. Targeting end of March, early April for presentation at the Selectboard meeting.
- Historic Preservation Demolition Standards – Contract was executed with consultant Brandy Saxton/Placesense to provide technical expertise to research and develop draft standards for consideration. Kick-off meeting scheduled for February 10th with the Historic Preservation Commission.
- Selectboard Ad Hoc Committee on Homelessness – Continued discussions with Location Committee on options, and follow-up.
- Climate Action Plan – The Climate Advisory Committee has continued community subcommittee meetings focused on a variety of topics impacting climate. Assisted the Committee in collecting additional Town data and attending meetings.
- TIF and Pool Bond Bank Application – Prepared report for the February 9th Selectboard meeting to review and act on documents for the Bond Bank sale at the end of February, early March.
- Christian Street Sidewalk – Responded to inquiry regarding desire to have sidewalk along Christian Street in Wilder. We will be following up with information on the Town’s feasibility study a few years ago that outlined options.
- Intersection of Route 14 and Route 5 – Attended VTrans presentation of preferred alternatives.
- VT Downtown Program – Completed assembling information for the 2020 report, which then was submitted to the state.
- VT Better Places Grant – State decision on the grant submitted by White River Indie Films (WRIF) in collaboration with the Town and Vital Communities is pending. WRIF is proposing film “Shows” projected on buildings primarily focused in the Currier St area, similar to what was piloted in downtown during the winter holidays. It will be coupled with rejuvenating WRJ’s First Friday events this year given COVID.
- Development Proposals/Building Permit Applications – Continued receiving and processing information requests, Zoning Permit applications, and Certificates of Occupancy. Responded to various development inquiries and review of preliminary information.
- Town Commissions/Board/Committees – Continued to provide staff support and technical assistance to 9 Commissions/Board/Committees.
- Clifford Park Resilient Hartford Use of Open Space – Staff continued working with the Resilience Hartford Committee to develop a scope of work to hire a consultant to assist in the development of an implementation plan for planting fruit bearing plants and trees.
- South Main Street TIF Improvement Projects – Continued working with DPW on engineering and design on second phase for construction in 2021.
- Town Forest Tree Harvesting – Continuing to work with the state Forester to develop a tree harvesting plan for 2021.
- Grant Reimbursements – Continued assembling documentation to request reimbursement of expenditures for projects receiving grant funding and other sources.
- Mobile Home Water Pipe Heating Solution – The Hartford Energy Commission continues to work with Vital Communities, Efficiency Vermont and the Town of Thetford to work with the University of VT Engineering Dept to develop a solution to easily and inexpensively insulate mobile home hot water pipes.

**Town Clerk**
The Town Clerk's Office has been proactively encouraging voters to consider voting by early/absentee ballot in an effort to minimize large crowds at the polling place on election day to include messaging on social media, Listserv and the Valley News. We
have had a good response to these efforts. We expanded these efforts by having postcards printed and mailed on Thursday, February 4th to Active (not challenged) Hartford voters. As of 5pm on Monday, February 8th, we had received 770 requests for early/absentee ballots. We received the ballots from the printer on Monday. We have volunteers scheduled this week to assist with getting the ballots mailed out to voters.

In other news, the Assistant Clerk, Sherry West, continues to be busy with a steady stream of document recording; processing dog licenses and liquor licenses. We had set a deadline of Feb. 1st for liquor license renewal applications to be received by our office. On Feb. 8th, she started contacting those businesses who have not yet submitted their renewal applications.

We continue to assist attorneys/title searchers/real estate agents with land records research; members of the public with marriage license and notary services as time permits. Our office will be consumed by election-related activities/preparations for the next three weeks.
