

HARTFORD TREE BOARD

Tree of the Month for January 2021

Please check out January's Tree of the Month sign as you walk up Hartford Avenue (Rt 5) near the Coop and Corner Drug stores.

We are highlighting the American elm cultivars planted by the State of Vermont along Hartford Avenue and those planted by the Town of Hartford between Pine Street and the Coop parking lot. Begin to notice the silhouette and bark of trees to help identifying trees without the aid of their leaves.

Also look for December's Tree of the Month sign on Bridge Street highlighting a green pillar pin oak. November's Trees of the Month sign on the Quechee Green on the path along the river highlighting the riparian buffer vegetation.

We keep the signs up for three months. You can't miss them! Enjoy!
